

## *Customer Service Is Our #1 Goal*

*Cape Fear Turf Farm*, located in Council, North Carolina, utilizes the latest turfgrass technology including self-contained auto stackers with floating heads on grass cutting units. We strive to meet the demands of our customers on a day-to-day basis while keeping our costs competitive. Our variety of sod sizes provides flexibility for any home or commercial construction project.

With more than 1,000 acres in production, Cape Fear Turf Farm is one of the largest producers of sod in southeastern North Carolina, featuring seven warm-season grass species available in 30 and 42 inches wide and 100 feet long big rolls, and 18" x 72" and 24" x 56" mini rolls.
